

Conveyor curve belts / Curve belts Instructions

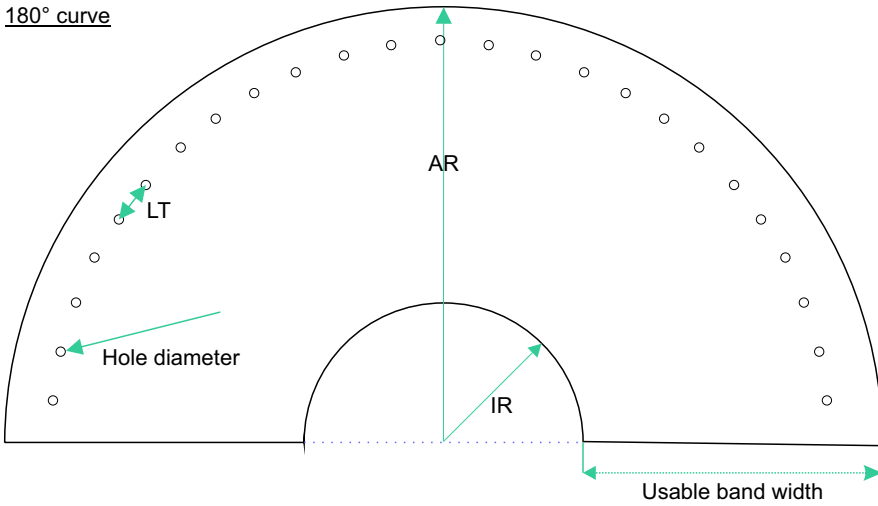

90° curve

Necessary information:

- Bandwidth
- IR = inner radius
- AR = outer radius
- Division dimension center / center hole
- elast. Fabric strips
- Standard: 40, 50 mm
- Others possible on request
- Weight per square meter
- speed

180° curve

Usable width:		mm
Inner radius (IR):		mm
Outside radius (AR):		mm
Hole spacing (LT):		mm
Hole diameter:		mm
Number of holes (LA):		Stück
Section angle connection:		°
Type of connection:		
Number of connections:		Stück
